Nano-Amplified CBD Vapeable/Sublingual Use

Description

Herb Life's Vapeable and Sublingual CBD Oil will deliver relaxing, therapeutic benefits to the mind and body. This premium oil blend is infused with Organic Nano-Amplified Hemp Extracted CBD Isolate and can be conveniently used in either a vape pen or simply under the tongue (sublingually).

Recent studies have shown CBD to have neuroprotective properties while being non-psychoactive. Research has also shown CBD to be an effective anti-oxidant and anti-inflammatory.

With our smooth blend of oil, no more worries of clogging your vape coils or the CBD clumping in your bottle.

Safe and Non-psychoactive – 100% THC Free. CBD is completely safe and non-psychoactive so no worries about getting “high or stoned”.

Available in 3 convenient sizes and 7 delicious flavors.

So choose your CBD and get relief today!

Directions for Use

Vape Use

Simply give the rubber bulb at the top of the dropper a gentle squeeze to draw in the CBD oil into the glass pipette. This will fill the pipette halfway which is a "full dropper" (1 ML) of CBD Oil. Dropper will not fill up all the way. Gently squeeze the rubber bulb to place oil into cartomizer of vape pen one drop at a time and fill to the desired level.

Enjoy the delicious flavored CBD Oil alone or add to your favorite E-liquid.

Sublingual Use

Place CBD Oil, one drop at a time, under the tongue for 10 to 90 seconds, then ingest.
